DIAMONDS MAY BE FOUND IN WEST TEXAS

The United States geological survey has been making extensive examination of the volcanic region of Arkansas where diamonds have been found.

In the Capitan mountains of west Texas, about 200 miles below El Paso, and in the Eagle mountains, the geological conditions are ideal for the occurrence of diamonds, as in ancient times there was great vulcanism in the midst of carboniferous shales and coal measures.

ROSWELL MAN TO BUILD RAILROAD

Property Owners Must Put Down Walks—Jockeys Fight in Race.

Roswell, N. M., Jan. 5.—Alvin R. Morrison, of Philadelphia, and Charles C. Trenchard, of Philadelphia, and James P. Hinkle, J. P. White, Chilton Chisholm, J. Smith Lea, Edgar L. Bedell and John W. Rhea of Roswell, have incorporated the Roswell, Northern & Gulf Railway company with a capital of \$150,000. The object is the building of a railroad from Roswell to Tucumcari, a distance of about 150 miles, by way of Fort Sumner.

In the test suit of Bert C. Ingersoll against the city of Roswell in which plaintiff prayed for an injunction restraining the city from the enforcement of an ordinance requiring Mr. Ingersoll and others to build sidewalks along their property line, Judge Pope denied the petition of plaintiff attacking the city's right to order the improvement made and held that the city has a right to order sidewalks put in wherever and whenever the city council sees fit to do so.

L. W. Adams gave C. W. Greer deeds to certain property he owned in Roswell and Hagerman, as security for a loan of \$2500, conditional papers to that effect being attached to the deeds. Greer sold the property for \$4500 when Adams became unable to pay the debt. Adams brought suit for his share of the \$2000 excess and Judge Pope rendered a decision in his favor, giving him all excess after the payment of the loan, interest, fees, costs, etc.

The last horse race run at the Roswell fair grounds developed into a running personal encounter between two jockeys riding the two horses. It was a quarter mile dash between John R. Wilson's sorrel "Ice" ridden by Frank Newark, and J. H. Fowler's stallion, "Hythen," ridden by Willie Babb. Fowler's friends claim that Newark crowded Babb into the fence and struck Babb's horse in the face. Babb fell to the rear, but soon caught up and gave Newark some of his own medicine. After that it was "give and take," the horses doing the running at will, and the jockeys engaging in a sparring match that excited the spectators more than any horse race that has been seen here. The judges gave Hythen the race.
